

# AP-1700

**CARTONMASTER®**

**Automatic Flatbed Diecutting Machine**

---

**AP-1700** LAP Feeder – 5750 i.p.h.

## AP-1700 with LAP Feeder.

Asahi's new machine, AP-1700 with LAP Feeder debut in European market. The new LAP Feeder system has been designed to improve the productivity, quality and consistent feeding of micro flute, laminated and normal corrugated up to double wall.

The suction box is supplying suction to 3 moving belts. The belts transfer the sheet in single formation from the stack to the squaring section. Once the sheets reach the squaring section, the back pusher gently pushes the sheets against the front lay and the side lay joggers square the sheet across the width of the machine before the gripper bar collects the accurately positioned sheet.

## Technical Data

	<b>5750 i.p.h.</b>
Maximum Sheet Size	1300 x 1700 mm
Minimum Sheet Size	450 x 600 mm
Maximum Cutting Size	1280 x 1700 mm
Inside Chase	1343 x 1740 mm
Die Fixing system	Centerline II System
Cutting Knife Height	23.8 mm
Minimum Gripper Margin	10 mm (Adjustable up to 20 mm)
Maximum Calliber of Board	11 mm
Maximum Operational Pressure	350 Tons
Machine Net Weight	Approx. 45 Tons.

### Available Options:

- ASP Camera and Sheet position Correction Systems.
- Operator functions on the RIGHT side of the machine.
- P.C.C. (Preset Computer Control) for quick order change.
- Cutting Chase Loader (Manual / Automatic )
- Operator's Platform in Aluminium
- And more
